### NOTICE OF PROPOSED RULE MAKING

Adopted: February 25, 1998

Released: March 6, 1998

Comment Date: April 27, 1998

Reply Comment Date: May 12, 1998

By the Chief, Allocations Branch:

1. The Commission has before it the petition for rule making filed by Daryl A. Alligood ("petitioner"), requesting the allotment of Channel 296A to Shenandoah, Virginia, as the community's first local aural transmission service. Petitioner states he will apply for the channel, if allotted.

2. In support of his proposal, petitioner states that Shenandoah is a thriving community with a population of 2,338 persons located in Page County which has a population of 21,690 persons. He notes the community has its own town board, local banks, grocery stores, restaurants, service stations and several churches. Petitioner submits that Shenandoah has a clothing manufacturer, auto dealership, computer software manufacturer, housing products manufacturer and a number of social and civic organizations. Finally, petitioner contends that Shenandoah is comprised of the components which fully qualifies it as a community for allotment purposes.

3. We believe petitioner's proposal warrants consideration since it could provide Shenandoah<sup>1</sup> with its first local transmission service. Channel 296A can be allotted to

4. Accordingly, we seek comments on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the community listed below, to read as follows:

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

6. Interested parties may file comments on or before April 27, 1998, and reply comments on or before May 12, 1998, and are advised to read the Appendix for the proper procedures. Comments should be filed with the Secretary, Federal Communications Commission, Washington, DC 20554. Additionally, a copy of such comments should be served on the petitioner, or its counsel or consultant, as follows:

<sup>2</sup> The coordinates for Channel 296A at Shenandoah are 38-30-00 NL and 78-36-33 WL. Petitioner proposed coordinates 38-27-00 NL and 78-33-00 WL with a site restriction of 7.5 kilometers (4.7 miles) southeast. However, the Commission generally does not protect a prospective applicant's desired transmitter site for a new allotment if a less restrictive site is available, as there is no guarantee that the petitioner will ultimately become the licensee. Therefore, we will not consider petitioner's site, and advance a less restrictive site for the allotment of Channel 296A at Shenandoah, Virginia.

An ex parte presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such a request or a summary of any new oral information shall be served by the person making the presentation upon the other parties to the proceeding unless the Commission specifically waives this service requirement. Any comment which has not been served on the petitioner constitutes an ex parte presentation and shall not be considered in the proceeding.
